

plaid curves *table runner*

[CORRECTED TEMPLATE]

by KEVIN KOSBAB

This is a corrected template for pieces on the pattern insert from the Fall 2010 issue of *Stitch*. We apologize for our error and for any problems you may have had with this project as a result.

ASSEMBLING FULL-SIZE TEMPLATE PRINTOUT

1 | When preparing to print the PDF, make sure that you are printing it at 100% and that there is no scaling. Check the settings for page scaling (should be "None") and check the preview to make sure that you will be printing at full size. Make sure that the box labeled "Auto-Rotate and Center" is unchecked (instructions apply specifically to Adobe Reader; if using another PDF reader, check for similar settings).

2 | To ensure that the template has printed at the correct scale, check the size of the TEST SQUARE. The Test Square should be 2 × 2" (5 × 5 cm).

3 | To begin assembling the pattern, cut off or fold the dotted margin around each page.

4 | The pages are numbered in rows, so the first row of pages is numbered 1a, 1b, 1c, etc. Line up the rows and match the dotted lines together so they overlap. Tape the pages together. Use the illustrated guide to match each piece. Once the pattern is complete, follow the instructions for its use.
